

A new Sainsbury's for Dursley... tell us what you think.

Sainsbury's will shortly submit a planning application to build a new foodstore on the site of the Castle Street fire station which is being relocated to a modern, purpose-built facility elsewhere in the town.

The new store will offer improved quality and choice in food shopping for Dursley residents and we'd like to know what you think of our plans before we submit them.

A new Sainsbury's in Dursley will:

- Provide an accessible high quality food retailer for the town and surrounding areas
- Attract shoppers back to Dursley and create potential for 'spin-off' trade to existing town centre businesses
- Provide a range of organic and locally sourced products
- Rejuvenate Dursley town centre and help kickstart other redevelopment projects
- Benefit from sustainable design and energy efficient construction techniques
